

May 27 & June 3, 2005 Khutbah: Straying away from the Guidance after it has been pointed out:

“I seek refuge in Allah, from satan the rejected.”
In the name of Allah, Most Gracious, Most Merciful.

As a messenger from the Lord of the Universe, and as an ordinary human being with a wife and children, living a daily life like others but at the same time conscious of my responsibilities in delivering His message, I observe and reflect at the scripture and everything around me. I am also required by Allah to watch over the believers who have decided to follow me. When the believers wrong their souls, I am supposed to correct them. This gives them a chance to repent; after which the Most Merciful erases the sin from their record.

The vast majority of the people do not care when a message or a proof comes from the Lord, for various reasons concocted by them. They are stuck with their belief in a particular messenger of their choice that came during the course of history. The few who are reverent of God, and willing to embrace and submit through new messages and proofs are not immune to satan’s desires and wishes. They can and will stray away from time to time. Out of these few, the chosen few will repent to God immediately when reminded of their wrongful utterances or other sins, and proceed on the path of righteousness. The others will drop out of submission for having hidden arrogance and doubts about the messenger, thus expressing their doubts about God’s Absolute Authority.

The doubtful ones have the same tendency as other disbelieving people. They want to be on their own without any allegiance or responsibility, towards God and His messenger and to do what their minds tell them. They resent being part of the “one congregation of Allah;” and do not like to be pointed out for their wrongdoings, or being asked to correct themselves. I see no desire on their part to better themselves, express any motivation, or a commitment to serve in the cause of God with their money and their lives. It does not matter even after witnessing such enormous and profound Miracles from God to alter their behavior and actions. These are no ordinary Miracles, if you seriously think and reflect on them. **These are Proofs from the Lord of the Universe.** The day you face the Almighty Lord, you will be speechless. By ignoring these Signs and Miracles, you are disregarding Allah, and you could lose out the unique opportunity to purify your soul and asking for forgiveness from Him.

The difference in complete belief or disbelief is narrow. It is easy to fall out of “belief” into “disbelief” but very difficult to come out of disbelief back into belief. The example that I can give you is of a person who falls into a deep pit or hole, then cannot come out of it on his own. It takes a rescue team of few men with specialized skills to get you out in time before you die, with time being the essence of the rescue. Similarly, if you fall into disbelief through your utterances or actions, and do not seek consultation with people of knowledge from the Scripture; refuse the good advice to save your soul and do not repent immediately to God, (time being of the essence) then you cannot be saved. The system created by God applies to all of us; His system is functional throughout the universe, as you can observe and appreciate. We are designed with the time running out on us. Each day brings us closer to death. Each day matters in accomplishing and advancing in our goals, or losing out and regressing.

It is difficult to explain this phenomena: a lot of people will listen to their parents, if they are obedient to them; similarly, they will listen to their false preachers, or their bosses at work; but do not like to be advised, commanded or corrected by a messenger of God. They fail to understand and realize that this is the “ultimate test of their submission to God.” If it was not meant to be this way, as The Most Wise says, then He could have given every soul its guidance; or had He willed, He could have made all

the humans into one congregation. Clearly, this is not the system as we can see. The guidance comes at God's choosing to a community or communities that He designates through whomever He chooses from amongst us. Even the Miracle or the Sign given to a messenger is decided by God. As you can see through the Quran, some messengers were given more profound miracles and signs as compared to the others.

The Signs blessed upon me are a reflection of all past miracles of God, about His Omnipotence, Power, Wisdom, and tells us that God is the Source of all knowledge; as these revelations confirm and prove them all to be truthful. It is best expressed through verse 34:45

34:45 Part 1: Those before them disbelieved,

Part 2: and even though they did not see one-tenth of (the miracle) we have given to this generation,

Part 3: when they disbelieved My messengers,

Part 4: how severe was My retribution.

Revealed: **The Allah letters for the entire verse are 14, a fulfillment of "revelation of Seven Pairs."**

Revealed: Parts 1 – 2, my name letters are 11 – 10, a diff. of 1, a "revelation from God."

Revealed: Parts 3 – 4, my name letters are 5 – 4, a diff. of 1, a "revelation from God."

The disbelieving people have a hard time believing whatever God says or shows from the verses. The first part of the verse attests to the fact of denial and disbelief:

"Those before them disbelieved."

Revealed: The G.V. of Allah letters are precisely 66, revealing that the vast majority in the past as well as now, reject and dispute with whatever comes from Allah, through His messengers. Note that disbelief is associated with messengers and miracles in this verse, and the consequence of severe retribution is also mentioned. It also points out the fact that the "revelations" bestowed upon other messengers in the past were only one-tenth of what God has given to our generation; and clearly reveals the magnitude and the gravity of these Miracles and Signs. As if the "revelation of 1 God" through the messenger's name letters, as well as the "revelation of the Seven Pairs" above, is not enough for the doubtful, The Most Wise adds another dimension to the Miracle to bring out what has already been revealed to me. Praise be to Allah.

Revealed: The G.V. of Allah letters for the verse is 138, & G.V. of my letters is 852, the diff. is **714**, thus revealing the "messenger who has been given the Seven Pairs revelation." Also revealed is the following:

Placing the G.V.'s of Allah letters and mine together: $138,852 = \underline{14} \times \underline{19} \times \underline{522}$

There are the apparent and visible words of God through the verses, which the eyes can see, and there are also deep, hidden, coded messages, that the eyes cannot see, till He reveals them. You have witnessed the Sacred Codes of 14 and 19 revealed through an important verse, the context and meaning of which was not known to you previously. Moreover, the number **522** is not an ordinary number. It represents the G.V. of "**HADITH**," the only truthful words of God which He communicates through His messengers. In your generation, they have been sent down bearing the codes of 19 and 14, as well as other profound Signs and Revelations.

One of the messenger's function is to confirm all past messages and messengers, which I have done so. Another function is to remove all distortions and false prohibitions from the religion, thus purifying it. The fabrications about past messengers – for example, about Jesus being the son of God,

about a so-called Messiah coming again, about prophet Muhammad's so-called hadith and sunnah, allegations against Rashad, and other distortions about all messengers have now been exposed by God as total falsehood. Through Quran itself, and now through the profound and intricate miracles embedded in the verses, God proves the truth of His words and validates and authenticates them. What you witness through the khutbahs is a glimpse of what God has given me, and the enormous treasure of these proofs and miracles on all subjects is waiting to be delivered to the people, with the help of believers, in due time, God Willing.

Why do the people, including the believers have so much doubts about God, even though He has sent a messenger with clear Signs and Proofs? It is because they cannot encompass Allah, to accept His Absolute Authority and do not have certainty about the Day of Resurrection. They can much less envision Hell. God goes by a set time frame in carrying out His will on earth, and does not wait for your delayed decisions and the challenge to see the retribution before you believe fully. There is a reminder through these verses:

52:45 Disregard them until they meet the day in which they are struck.

52:46 On that day, their schemes will not protect them, nor will they be helped.

Revealed: The Aleefs (Absolute Authority) are 2 – 3, a diff. of 1. Absolute God.

Revealed: The Allah letters are 7 – 8, a diff. of 1. Almighty God.

Revealed: my name initials are 15 – 16, a diff. of 1. Most High.

Revealed: my name letters are 18 – 19, a diff. of 1. Most Praiseworthy.

To fully envision and understand the complex nature of these revelations, whereby God has balanced His own name letters, as well as His messenger's name letters, then revealed to him with this knowledge, is only for a few who reverence Him completely. For example, the above two verses with a few words have just been magnified into a lot more, while still being the Quran. This is the Power of God, be He glorified. It is similar to observe a tiny seed break open and become a plant or a tree with a complex structure of thousands of leaves, or bearing fruits and vegetables, as designed by the Omnipotent. One sperm out of the millions that you eject on one occasion fertilizes the ova thus producing a new human being like yourselves. If you do realize a process of God at work, and His design for everything, how can you dispute or reject a "process" that He shows and reveals from the Quran, perfectly balanced and in harmony with the verses. How can the believers not fully appreciate the Lord that they claim to worship, reverence and love so much? Your thoughts and mind should be on Allah, who is the Source of all revelations; the human messenger only records and delivers what is inspired and revealed.

For those who think they can derive their own knowledge and conclusions from the verses, satan has led them on. It is alright and normal to be in pitch dark and not being able to see, but it is a travesty and a pity to be act blind in broad daylight, when you should be able to see. Why do you think God has scattered the subjects, the commands, the instructions, and the guidance over thousands of verses spread apart, rather than keeping them next to each other. But at the same time, He has maintained the linkages between them and counted everything in a record. Was it a matter of making it easy to read and extract knowledge in a few days by yourselves or was it a matter of making it easy for you to gain knowledge throughout your life in accordance with His "system and laws?" The latter statement is true. It is evident from these verses, that define the system and the law.

44:4 In it (the Quran), every matter of wisdom is clarified.

44:5 It is a predetermined command from us that we send messengers.

Revealed: The G.V. of Allah letters are 37 – 36, a diff. of 1 – the System and the Law of Absolute God, clarifying that every matter has been covered, but the wisdom can only be derived through His messengers.

Revealed: The G.V.s of Arabic letters of each verse are: 855 – 1020, **a diff. of 165**, revealing His Absolute Authority through the Shahadah (165) and Al-Samad (165) also. It is an affront and a blasphemy to His Absoluteness when people do not believe in His messengers. Even if they believe but fail to obey the messenger, it constitutes the same sin of disbelief. When this has been made so clear and obvious to the people, how can they think and do otherwise? Do they really seek God’s pleasure or seek His wrath? Let them decide.

Even before they argue or challenge these revelations of God, I have been given miracles to counter and astound them, in order to defeat the falsehood, MashaAllah.

Let me now talk a little bit about the believers who have followed me. First I will recite appropriate verses, then express my observations:

4:115 As for him who opposes the messenger, after the guidance has been pointed out to him, and follows other than the “**believers way**,” we will direct him in the direction he has chosen, and commit him to Hell; what a miserable destiny!

4:116 God does not forgive idol worship, and He forgives lesser offenses for whomever He wills. Anyone who idolizes any idol beside Allah has strayed far astray.

Did you ever realize about this grave warning that believers who oppose a messenger after receiving the guidance, in any way or fashion, have committed idol worship and are condemned to Hell? It may seem like a naïve and simple offense or sin, but NO, it is NOT! Since I really care for your eternal future and love you as believers in submission to God, I am therefore bringing this subject and knowledge to your attention. If I fail to point out, you can easily violate His Law and transgress against Him without knowing the consequences, which are severe and extreme. You may want to know why it is classified as a serious offense and a gross sin. The reasons are as follows:

You have gone against God’s command to respect His messengers, support them and follow them. Moreover, you have challenged His Absolute Authority by rejecting the commands issued by the messenger under God’s inspiration and direction. See verse 33:36. Let me show you the proof now of His Absoluteness through these verses:

Revealed: The Aleefs are 8 and 9, a diff. of 1 – Absoluteness of ALLAH’s Authority.

Revealed: Placing G.V.s of Allah letters for each verse, side by side:

$303,324 = 14 \times 21666$ -----and in reverse: $324,303 = 7 \times 46329$

This reveals the revelation of the “Seven Pairs” by providing multiples of 14 and 7. Additionally, the sum of the G.V.’s is; $303 + 324 = 627$, a multiple of 19.

The difference in G.V.s of 303 and 324 = 21, a multiple of 7,

Thus providing both the Sacred Codes.

The verse 4:115 tells us that there is indeed a “believers way” to follow Islam, and all the verses and conditions are given in the Quran. I will not get into those verses in this Khutbah. Those who have come this far in belief should realize that “all their works can go waste, by a simple act of disobedience of the messenger, or from wrongful utterances.” I will give some examples of how satan has duped some believers in the past, and can certainly do again in the future. Without naming names, I will recite for you the examples, so that you may benefit from God’s guidance. If anyone amongst you takes it personally, it will be a clear indication that they have not submitted to their Lord.

**A believer has referred to sources other than the Quran to understand the meaning of the verses. He did not follow the believers way but when I pointed out his sin, he repented to God and submitted.

** Another believer made a lot of suggestions to the messenger without being asked or consulted. What was his sin? God tells the messenger to follow what is revealed to him from his Lord, and not to follow any idols beside Him. Unless the messenger consults the believers, you should not interfere or offer advice to him, as He receives his instructions from God through inspiration. The sin of ego played a role, and he did not follow the believers way. He was advised to refrain, after being shown verses from the Quran; fortunately, he repented and submitted.

** Another believer questioned the unique way I conduct my khutbah, talked behind the messenger's back and followed the opinion of his children, thereby setting up the children as his idols beside God. This clearly presented an opposition to the messenger, and is not classified as obedience to him. He failed to follow the believers way but has repented to the Lord, and submitted.

** Another believer has referred to prophet Muhammad as "our prophet." This denoted personal feelings and reverence for the prophet, and created a distinction amongst God's messengers, though he said out of cultural values rather than making an actual distinction. God has said that he was not the father of any man among you; he was a messenger of God and the final prophet. He was also a messenger for the whole world, and not just for a particular family or tribe. The believer has been advised to repent to God and I look forward to his answer, if he submits or not.

** A believer has drawn conclusion to the meaning of certain verses on his own, without any proof. I have pointed out the sin of translating and interpreting God's words without authorization from Him. This is also idolatry.

** Some believers in the past have questioned why a woman cannot lead the prayer or the khutbah. They were offered guidance from the Quran but the devil sent them astray. It was in accordance with God's will. They could not follow the believers way.

** Some have also questioned in the past as to why I have to mention that I am a messenger. They do not like to hear this word. Are they really believers then? The Quran tells me to proclaim:

26:178 I am an honest messenger to you.

26:179 You shall reverence God and obey me.

If they are averse to the language of God given in the Quran, then the devil has surely enticed them. You cannot guide the ones whom God has sent astray.

** A believer wrote to me and called me his "most honorable messenger." I corrected him and told him that God has called all His messengers honorable, but you do not need to call me as such personally. God has the right and the privilege to call them honorable, but the human being does not have to address as such, in a personal way. I also told him that I do not seek exaltation on earth; he can call me by my name. He repented to God, and followed the believers way.

** A believer conveyed to me that I possess amazing knowledge. This was a sin, as they should be awed and amazed at God's revelations, glorify God for revealing them, and not admire a human being, who has no power to offer this knowledge or miracles.

These were some of the examples and all the believers are strictly advised to follow the entire Quran and to see if their behavior is in compliance with the commands of Allah. Their utterances are recorded by the Most Wise. He may redeem you or He may send you astray. This decision and knowledge is only known to Him. But rarely do I see any of the believers use the Quranic language to express their belief, which is mandatory for them. Instead of saying that they are impressed by my knowledge, (the unrighteous utterance), I would rather see and hear them saying what God has commanded, (the righteous utterance), which is as follows:

3:53 Part 1: Our Lord, we have believed in what You have sent down.

Part 2: and we have followed the messenger.

Part 3: count us among the witnesses.

Revealed: my name letters are 8 and 7 and 6, a diff. of 1, a revelation from God telling the believers what is expected of them, and the words to say. There are many examples I can give you from the scripture and the importance behind them. Many of you are plain shy or hesitant to use God's language, and are not even aware that you are committing a sin. The scripture is designed and ordained for the believers, all of it, as a mercy from God, so that they can be redeemed.

Do you think that you can reverence Allah without following His messenger? The answer is NO! The way God has designed the System is that you can reverence Him by following and obeying His messenger. The verses and the proofs are provided to support God's point of view.

26:162 I am an honest messenger to you.

26:163 You shall reverence Allah, and obey me.

Revealed: G.V. of Allah letters for both verses is **131**, & G.V. of my letters is **564**, revealing a difference of **433**, being the G.V. of "LORD OF THE UNIVERSE." By revealing such a profound number and the meaning behind it through the Allah letters and that of the messenger, it is proven that reverence for Allah can only be achieved as the verses say; by obeying the messenger. They are interconnected, and linked to inform you of the exact system, as advocated by the Lord of the Universe. Look again!

26:163 You shall reverence Allah, and obey me.

Revealed: the Allah letters are 7, and my name letters are 8, a diff. of **1** – **ABSOLUTE GOD**. I can only ask the believers to fear God, and reverence Him by complying with these revelations, after seeing and witnessing them. God be glorified. I recite to you a couple more verses in this respect.

3:28 Part of Vs: God alerts you that you shall reverence Him alone. To God is the ultimate destiny.

3:30 Part of Vs: God alerts you that you shall reverence Him alone. God is Compassionate towards the people.

Revealed: **Proof of GOD:** His name letters are $13 - 12 = 1$ Absolute Lord.

Revealed: **Proof for messenger:** my letters are $16 - 15 = 1$ Absolute Lord

These revelations have clarified that you cannot reverence God by disbelief in His messenger or messengers. Glory be to God to reveal miracles of this nature, showing difference of Allah letters as well as mine, I can only show my appreciation for His mercy.

No matter if you do your Jumaah salat with me, or are around me, or seem to impress me, the truth of your belief is known to Allah, who has stated:

26:121 Part 1: This should be a lesson,

Part 2: But most people are not believers.

Revealed: The G.V.'s of my name letters are: 130 and 332, a diff. of **202**, revealing through the messenger's name letters the value of "**LORD**" and confirming that most do not qualify as "**believers**," though they may be calling themselves as such. He has also stated another verse that reveals most believers will commit idol worship, intentionally or unintentionally and violate God's Absolute Authority.

12:106 The majority of those who believe in Allah do not do so without committing idol worship.

Revealed: The G.V. of Allah letters is 110 and the G.V. of “**La Elaha Ella Hoo**” is **110**.

Do you know of anyone who preaches like this, without hiding and concealing the Truth? Do you know of anyone who writes and recites the verses and provides the proofs to remove your doubts and create certainty in your minds about Allah? If you check all the false literature out there and the false websites preaching to the people, you will never see all the verses from the Quran quoted as I do. They hide and cover up some of the subjects, as they do not agree with them, or for fear it may expose their false beliefs, or simply that they do not have enough knowledge about them. A person speaking and stating the Truth has nothing to hide. Neither does he have to side with one against the other; they are all equal in my eyes as believers. But God does value the active ones as compared to the sedentary. He promises redemption for both classes, but the active believers have a higher rank in the Hereafter.

Argument with a messenger of God, or opposition to him, in any way shows that the ego has not been subdued and killed. This is contrary to your submission, and your belief is not accepted by the Most Gracious. In fact, whatever righteous or good you may done in the past is immediately nullified. If you look in the Quran, those who argued or opposed Noah, Moses, Jesus, Muhammad and the rest; or refused to offer them help and support; or even making false excuses, they were condemned by Allah.

As believers, your actions and utterances have to be righteous; meaning in accordance with the commands of Allah. You cannot just say anything without thinking, but when reminded, you ought to do better and repent right away. Here is a couple of verses for those who have followed me:

33:70 O you who believe, reverence Allah and utter only the correct utterances.

33:71 He will then fix your works, and forgive your sins. Those who obey Allah and His messenger have triumphed a great triumph.

Revealed: The G.V. of **my name letters** are 726 and 836, revealing a diff. of **110** – submitting to Allah’s Absolute Authority: attainable only by complying as the verse suggests, through righteous utterances and obedience to Allah and His messenger.

Revealed: The Allah letters in verse **33:71** are precisely **14**, a revelation of “Seven Pairs,” and reinforcing the message delivered to our generation.

I will recite a couple more profound verses with **CLEAR SIGNS** for the reverent to reflect on Allah, Most Wise and Omniscient. These verses reveal His Absolute Authority through both the forms of Shahadah, which have the values of **165 and 110**. The similarity and the linkage through these verses is that one of them mentions the **messenger**, and the other one mentions **the proofs**. This identifies and highlights God’s System, which is that “**messengers are sent with the Proofs and Signs**,” to test the people’s submission to Him, as to 165 and 110, in numerical terms.

4:170 Part of Verse: O people, the messenger has come to you with the truth from your Lord. Therefore, you shall believe for your own good. **G.V. of Allah letters is: 165**

4:174 O people, a proof has come to you from your Lord, we have sent down to you a profound beacon. **G.V. of Allah letters is: 110**

What is the proof mentioned here? In 4:174, the G.V. of all my initials is 840, a multiple of **14**, and representing the G.V.’s of the **Ha Mim** initials (**H.M.**) marking chapters 40 through 46. In numerical terms, we can write them as **8,40**. These have been revealed to me as initials of my name, Husain Makbool. To see and appreciate the precision of God’s miracle, these are 7 consecutive chapters having a total of 14 letters of “H.M.” as initials marking the chapters, and to match these, the Most

Praiseworthy has given a total of only **14 verses** with the numbers **128 and 178, in the entire Quran**, that are the values of my names. With mathematical inscriptions of perfect precisions placed by the Most Merciful Lord in the Quran before I was born, and revealed now, shows that He had already decided on the servants who will deliver His message at a certain time and to the community of His choosing. It also reveals how serious and profound this message is. Can any submitting person think of challenging God's authority? Can anyone even conceive that this is a fabrication of a human being? Let us go a little further.

4:170 Part of Vs: O people, the messenger has come to you with the truth from your Lord.

Revealed: my name letters are precisely **19**, denoting God's authorization for me.

Next Part of Vs: Therefore, you shall believe for your own good. If you disbelieve, then to Allah belongs everything in the heavens and the earth.

Revealed: my name letters are **20**, revealing a diff. **of 1 God**. A clear choice has to be made by the people without any pressure or coercion as to their belief; either they benefit by believing, or else they are doomed. But God still owns and controls the entire universe and your disbelief makes no difference to Him.

Linkage with the Prophecy of the Smoke:

44:10 Therefore, watch for the day when the sky brings a profound smoke.

44:11 It will envelope the people; this is a painful retribution.

44:12 "Our Lord, relieve this retribution for us; we are believers."

THE SIGN: Allah Letters are 6 – 8 – 8 in each verse, revealing a pattern of **688**.

4:170 O people, the messenger has come to you with the truth from your Lord.

THE SIGN: The G.V. of my name initials is **688**, matching the inscriptions of Allah letters in "Prophecy of Smoke" verses.

Believe it or not! In case you have already forgotten the earlier verses and proofs quoted by me on retribution, go back to **page 3** of the khutbah, and see verses **52:45-46** to refresh and enlighten yourselves.

4:170 Part of Vs: O people, the messenger has come to you with the truth from your Lord.

Part of Verse: Therefore, you shall believe for your own good.

Revealed: The G.V.'s of my name letters are 698 and 176, the diff. being **522**.

Does this number match the G.V. of "hadith"? YES IT DOES. The G.V. of **HADITH** is **522**. Praise be to the Most High, the message is very clear for those who fear Allah and reverence Him. He has invited the people to believe in "His words – Hadith," the coming of a messenger, who has been sent as a profound warner.

I implore my Lord to guide those who deserve His mercy. I am truly appreciative for His blessings in guiding me and appointing me an imam for the people. May my Lord be Exalted and Glorified. I do not claim to know much, but what I utter is always the truth and nothing else. God is Most Kind and Merciful towards the believers and will overlook our minor sins and shortcomings, InshaAllah. It humbles me to see and observe my name letters are inscribed in His Sacred Words – The

Quran, in a unique way that cannot be defined or explained, except to appreciate God's will and mercy. But it does bring glory to the Praiseworthy, who has no bounds and limits in what He can do.

For us it is difficult to comprehend or analyze His marvels – we have no words or explanations sometimes. But the word “believe” or “belief” has always been here and easy to understand. While the majority believes in other than Allah, without any reason, logic, truth or proof; a small minority of people find it easy to connect their belief with the Initiator of the universe and the Creator of all creations by mentioning His name, commemorating Him all the time and worshiping Him as He has commanded. They know that His name is ALLAH. They also know that He is One. Since He is One, they know that He has the Absolute Authority over everything, and they have to proclaim as such by reciting what He has given them. It is:

LA ELEHA ELLA ALLAH: G.V. **165** matched with: **ABSOLUTENESS** (AL-SAMAD): G.V. **165**

Connecting your belief in Allah: G.V. of (aamanoo) **BELIEVE 99** + G.V. of **ALLAH 66 = 165**

Once you have made this wise decision in life to connect and believe in your Lord; hold fast to Him through all His laws and commands in order to reverence Him, and put all your trust in Him. He will then guide you, forgive you, redeem you and recompense you generously in the Hereafter. At the same time I will caution you that the human and jinn devils are at work 24 hours a day and 365 days of the year, all the time. They stay busy in leading the people, including the believers astray, and try their best to wrestle you away from God. It is God's promise though, that satan has no power over the sincere and reverent believers. If you look at the history in the Quran, you will see that the rejectors, objectors and the disbelievers in God's messengers had no value or appreciation for the miracles and signs sent with them. They disregarded them, and duped their people by saying: “This is clever magic by the messenger.” Or they said, “this is human made.” The recorded history has been revealed by God in the Quran, so that the future generations do not make the same mistakes. I present to you verses:

74:24 He said, “**This is but clever magic!**”

74:25 “**This is human made.**”

Truly from Allah: the **Allah letters** are 8 & 9, = **1**, revealing, the proofs presented by me are from Allah, The Praiseworthy.

Inspiration from Allah: **my name letters** are 8 & 7 = **1**, revealing, as I stated earlier that the Most Wise has inscribed His Sacred Words (the Quran) with my name letters to deliver a profound message at a critical time in history to serve as a Reminder. Glory be to Him.

All of the inspiration I receive from the Bestower of all Grace and Mercy, is in response to my imploring early on, after I received some signs that He has appointed me a messenger. The proofs are provided now by God.

19:10 part of Vs: He said, (the messenger), “My Lord, give me a Sign.”

Response from Allah: His letters and mine are **7 & 7**, the Sign of Seven Pairs.

19:21 part of Vs: “We will render him a Sign for the people.”

What kind of Sign? G.V. of name letters are **296**, being a “rasool or a messenger.”

“peace be upon the messengers.”

PRAISE BE TO ALLAH, LORD OF THE UNIVERSE.
