

July 29, 2005 Khutbah: Masjid-Al-Haram and Masjid-Al-Aqsa.

I seek refuge in Allah, from satan the rejected.
In the name of Allah, The Most Gracious, The Most Merciful.

In our generation, we have the only truthful, and the best translation of the Quran, as compared to the many other translations done by human beings without authorization from God. The Most Wise knows the correct meaning of every word and verse, as the Scripture has been revealed by Him. In this **authorized translation** in English, the meaning of quite a few verses and words is totally different than what you find in other unauthorized translations. I will give you one example since a believing person wanted clarification on verse 17:1, which mentions the words, Al Aqsa Masjid, in Arabic. Contrary to what most muslims wrongfully believe, this Masjid has nothing to do with the present day masjid in Jerusalem. The meaning given by God is “the farthest place of prostration.”

The Quran mentions the Sacred Mosque a few times, but the Al Aqsa Mosque is mentioned only once through verse 17:1. As for the Sacred Mosque, all the details are given in the Scripture – the location, the purpose, the names of the messengers who built it and most importantly that it was commissioned and authorized by Allah, the Most Praiseworthy. As for the Al Aqsa Mosque, there is no detail or definition given. While the disbelieving humans rushed to translate it incorrectly over many centuries, the true meaning was revealed by God through His messenger, Rashad Khalifa.

17:1 Most Glorified is the One who summoned His servant {Muhammad} during the night, from the Sacred Masjid {of Mecca} to the farthest place of prostration, whose surroundings we have blessed, in order to show him some of our signs. He is the Hearer, the Seer.

Before I show you the Proofs of the verse that confirm the above translation to be truthful, let me shed some light on the false stories and the distorted logic used by the people of the scripture who do not believe in God’s Absolute Authority of revealing WHATEVER He wills, AND WHENEVER He wills. Such disbelieving people believe that Muhammad went to the heaven on a white horse from the present day Al Aqsa Mosque located in Jerusalem. In the verse God is telling us that He summoned His servant during the night from the Sacred Masjid to the farthest place of prostration. This heavenly location is blessed by God and He showed Muhammad some of His signs. There would have been no need to take his soul from one masjid in Mecca to another in Jerusalem, both being on earth. Furthermore, the mosque in Jerusalem is not blessed by God and there were no signs over there to be shown, except a few scattered houses and streets, which would not constitute any kind of Divine Signs. Now look and see the miraculous structure of the verse, to prove the truthful translation through this servant of God, validating and authenticating the translation done by the previous messenger, Rashad Khalifa.

Revealed: The G.V. of Allah letters in the verse are marked to be 433, being the value of “LORD OF THE UNIVERSE.” This proves that the soul of Muhammad was indeed summoned by the Lord of the Universe to the highest heaven, which is the farthest place of prostration, in order to be given the Quran. That is the place blessed by God, and the messenger was shown profound and awesome Signs from Him.

The names are designed and revealed by God under a special coding system, consistent with the proofs of the scripture. Hence, the words: Masjid Al Haram and Masjid Al Aqsa are no ordinary words; indeed they are the chosen words of God. Let me take you through the Miracles of these words:

	<u>Masjid Al Haram:</u>	<u>Masjid Al Aqsa</u>	
The Aleefs, (Absolute Authority)	3	4	= diff. of 1
The Allah Letters in each word are:	5	6	= diff. of 1.
My name letters are:	6	5	= diff. of 1.
G. V. of Allah letters are:	63	64	= diff. of 1.

To appreciate these Miracles from God, note that the Allah letters and mine **for each word** also have a difference of 1. Now, examine the G.V.'s of each word:

Masjid Al Haram: G. V. = 418 = 19 x 22
 Masjid Al Aqsa G.V. = 361 = 19 x 19

The Masjid Al Aqsa has been assigned the G.V. of 361, which can be divided by 19 and the quotient is also 19. This double 19 as an answer, signifies the highest heaven where Allah Taa'la is, and the absence of disbelieving creatures including satan and his followers. To enlighten you further, if I take appropriate portions of the verse, we get a precise answer through a precise numerical value.

17:1 Part 1 of verse: Most glorified is the One who summoned His servant during the night.

Revealed: The G.V. of Allah letters is 98 = 14 x 7 ----- **a multiple of 7 and 14.**

Revealed: The G.V. of my letters is 304 = 19 x 16 ----- **a multiple of 19.**

This shows the revelation of both Sacred Codes.

Part of verse: "from the Sacred Masjid (of Mecca) to the farthest place of prostration."

Part of verse: "whose surroundings we have blessed, in order to show him some of our signs."

Revealed: my name letters are 15 and 14, a diff. of 1 –God (the highest and farthest place of prostration)

Revealed: The G.V.s of my letters are 598 and 376, a diff. of 222, this being the G.V. of "**your Lord.**"

17:1 Part 1: Most glorified is the One who summoned His servant during the night, from the Sacred Masjid to the farthest place of prostration.

Part 2: whose surroundings we have blessed, in order to show him some of our signs.

Revealed: my name letters are 28 and 14, **a diff. of 14** ----- **the Seven Pairs.**

Part 3: He is the Hearer, the Seer.

Revealed: Allah letters are 7, and my name initials are also 7, ----- **the Seven Pairs.**

If you look at the chapter and verse numbers involved and the G.V. of Allah letters, they are:

17:1 ----- sum of digits is (1 + 7 + 1) = 9

433 ----- sum of digits is (4 + 3 + 3) = 10

This is the code of Tis'ha Ash'ar or "nine-ten" as given in 74:30 and the sum is 19, representing the One God.

Also note that Chapter 17 + Verse No. 1 = **18** (this is the G.V. of "wahidun – meaning One)

This number is matched by **18** Aleefs in the verse, and the subject of Muhammad's soul ascending to heaven is continued in Chapter 53, and covered through precisely **18** verses, again matching. Now see how God reveals my name through another miracle in the verse, as the messenger sent to confirm the truthfulness of the translation of the Quran.

(There are minor errors in printing, and omission or addition of certain words that will be removed or added in when God makes it possible for me to reprint the Quran, in accordance with His will, though the translation of the verses basically remains the same.)

The **first 19 Allah letters** occur on “Masjid Al Aqsa” – this number is the value of One God. After this Nineteenth letter of Allah, the remaining Allah letters in the verse have a G.V. of 178, which is my name, Makbool. This split of G.V.’s occurs on the 19th letters of Allah, and the G.V.s are 255 and 178 for the two splits of Allah letters. The difference between these two numbers is 77, which is the Seven Pairs.

255,178 = **14 x 18227** ----- and in reverse: 178,255 = **7 x 25465**

More Truthful Facts and Miracles:

Chapter 17 is the only chapter that has the most occurrences of the word “Quran or Al Quran.” There are 10 verses and these have 11 occurrences of Quran, revealing a diff. of 1.

There are a total of 10 occurrences of “Allah” in the entire chapter, while the total occurrences of “Quran” are 11, again revealing a diff. of 1.

When we attach the 10 verses to the chapter number 17, or attach the 10 occurrences of Allah to the chapter number, we get: 17,10. This is a multiple of 19. It is also the number that confirms the revelation of 1710 years A.H. to the Day of Judgment, which is 2280 years A.D., also a multiple of 19.

The verse numbers having the word “Quran” in them are:

Verses: 9 + 41 + 45 + 46 + 60 + 78 + 82 + 88 + 89 + 106 = 644 = 14 x 46 ----- **a multiple of 14.**

The word “Quran” occurs twice in verse 78, so let us take this verse number twice for this calculation.

Verses: 9 + 41 + 45 + 46 + 60 + 78 + 78 + 82 + 88 + 89 + 106 = 722 = 19 x 19 x 2 ----- **a multiple of 19.**

Through the verse numbers **God reveals the Codes of 19 and 14** that make up the entire Scripture.

The last occurrence of the word “Quran” in verse 106 has an important message. Let me recite the pair of verses for you to understand better.

17:105 Part 1: Truthfully, we sent it down, and with the truth it came down.

Part 2: We did not send you except as a bearer of good news, as well as a warner.

Revealed: Part 1 has G.V. of Allah letters as **128**, revealing my name, Husain as a messenger.

Revealed: Part 2 has G.V. of Allah letters as **66**, revealing that Allah has sent me as a bearer of good news and as a warner.

Revealed: The G.V.’s of my name letters are 502 and 324, **a diff. of 178**, revealing my first name, Makbool, by the grace of the Most Gracious, the Most Praiseworthy.

17:106 Part 1: A Quran that we have revealed slowly, in order for you to read it to the people over a long period.

Part 2: Although we sent it down all at once.

Revealed: The split of Allah letters in the two parts are 11 and 4, revealing **the pattern of 114**, being the total number of chapters in the Quran. The Aleefs have a split of 5 and 1, revealing the pattern of 51. By adding the two different patterns occurring through Allah letters and the Aleefs, we get:

114 + 51 = 165 – being the G.V. of the Shahadah and the G.V. of Al-Samad (Absoluteness)

Question: Did Allah give the Quran all at once to Muhammad?

Answer: Part 2: The G.V. of Allah letters are 66, proving that Allah gave the Quran all at once, when his soul was summoned to the highest heaven, but was revealed in the heart of Muhammad's body with Gabriel's mediation over a long period.

Another Profound Miracle: The Allah letters in verses 17:105-106 are 16 and 15, a diff. of 1 – **GOD** Disbelievers at the time of Muhammad questioned him as to why the Quran was not revealed to him all at once, and why he recited in bits and pieces over such a long period of time. They falsely alleged that he made it up or another human being was teaching him. They had no idea about the great miracle of God hidden in the verses, that will prove them wrong. The disbelievers of today's generation probably have the same doubts and can question me as to why I do not launch all the revelations at once, or why God does not show them the whole miracle all at once. God has profound reasons behind the revelations given over a period of time. It was true at the time of Muhammad, and it is true now with the revelations of 1 and the revelations of 14 and 19 sent through me, God be glorified. Here is a verse to defeat the disbelievers challenge:

25:32 Part 1: Those who disbelieved said, "Why did not the Quran come through him all at once?"

Part 2: We have released it to you gradually, in order to fix it in your memory. We have recited it in a specific sequence.

Revealed: The split of Allah letters are 17 and 8, revealing a pattern of **178**, being my name, Makbool.

Perfectly Matched: The Allah letters are **25** in the verse and my letters are **32**, thus matching the pattern of the verse **25:32**

Revealed: My name initials are 24, and my name letters are 32, revealing a pattern of 2432, being a multiple of 19, revealing my last name, Husain. ----- $2432 = 19 \times 128$, being G.V. of Husain (128)

Revealed: The Allah letters are 25 and my initials are 24, revealing a diff. of **1** – **GOD**.

25:32 Part of Verse: We have released it to you gradually, in order to fix it in your memory.

Revealed: The G.V. of Allah letters is **66**, being the glorified name of ALLAH.

25:32 Part of Verse: We have recited it in a specific sequence.

Revealed: The G.V. of Allah letters is **66**, being the glorified name of ALLAH.

17:106 Although we sent it down all at once.

Revealed: The G.V. of Allah letters is **66**, being the glorified name of ALLAH.

Now let me show you the miracle associated with the fact that God authorizes "all at once" the number of revelations, the substance, the message, the proofs associated with the messenger, but the sequence in which the messenger relays the message to the people is also controlled by God.

17:106 Although we sent it down all at once.

25:32 We have recited it in a specific sequence.

Revealed: Each portion of the above verse is marked by the name of the Most Sacred, ALLAH, having G.V.s as 66 and 66, each time.

Revealed: The G.V.s of my name letters are $226 + 126 = 352$, being the G.V. of QURAN, SubhanAllah.

Miracle: The sum of chapter 17 + verse 106 = 123.

The sum of Chapter 25 + verse 32 ----- = 57, the diff. in numbers is again equal to 66, being the glorified name of Allah.

PRAISE BE TO ALLAH, LORD OF THE UNIVERSE.
