

## Sermon: Walking the Path with the Messenger

August 15th 2008

I seek refuge in Allah from satan the rejected.  
In the name of Allah, the Most Gracious, the Most Merciful.

A believing man from London has asked a few questions through his email. Before I answer all of his questions, I have compiled this Sermon to enlighten you through the system of Allah. At the outset of this sermon, I would like to be candid with all of you about the congregation that I am leading on. My experience so far is that very few of the believers are walking the path with me, as pointed out in **Part 2** of Verse **25:27**. I hope I do not have to go in details to explain what **“walking the path with the messenger”** means. In simple words, everyone has to ask themselves – **are they with me or not, and how often? Is it some of the time or all the time? Are they involved casually or wholeheartedly?** The opportunity lost will come only as **“wishful thinking”** on the Day of Resurrection by those who lost it in this life, and did not care about it.

**25:27** The day will come when the transgressor will bite his hands (in anguish) and say, **“Alas, I wish I had followed the path with the messenger.”**

**Revealed:** The **Allah letters** are marked as **14** – the Ultimate Proof through the Miracle of **Seven Pairs**.

**25:27 Part:** “Alas, I wish I had followed the path with the messenger.”

**Revealed:** The **Allah letters** are **7** and **messenger’s letters** are **14** – The sacred proof of Seven Pairs informs everyone about the remorse on the Day of Judgment for failing to walk the path with the messenger. Walking the path means all the way - all the time, and not halfway – some of the time. This important part of the verse is stamped by the Most Gracious with His Sacred Name letters as well as those of His messenger, Makbool, whose path you are advised to follow and walk with, as the ultimate proof of Quran’s Verses. Note the linkages that go with this verse.

**25:27** The day will come when the transgressor will bite his hands (in anguish) and say, “Alas, I wish I had followed the path with the messenger.”

**25:28** Alas, woe to me, I wish I did not take that person as a friend.

**Revealed:** The **messenger’s letters** are 30 and 16, **the diff. is 14** – the people including some of the believers were duped by the devil into following the opinions of others and therefore failed to walk the path with the messenger and to strive with him.

*Why and how did this happen? It is because the followers of the Quran did not believe in the entire Scripture and disregarded verses relating to the messengers and the tests encompassed through them. Failing to walk the path with the messenger is a very serious verse, so much so, that when it is compared with other verses surrounding it, the Revelation of 1 is revealed through the letters of Allah, Most Glorified. Note that Verse 25:29 mentions the believers who had received the message but they went astray with the devil after receiving it. This verse applies to some of you at this time.*

**25:27** The day will come when the transgressor will bite his hands (in anguish) and say, “Alas, I wish I had followed the path with the messenger.”

**25:29** He has led me away from the message after it came to me. Indeed, the devil lets down his human victims.

**Revealed:** The Allah letters are 14 and 15, the diff. is 1.

**25:27** The day will come when the transgressor will bite his hands (in anguish) and say, “Alas, I wish I had followed the path with the messenger.”

**25:30** The messenger said, “My Lord, my people have deserted this Quran.”

**Revealed:** The Allah letters are 14 and 15, the diff. is 1.

*Why did the followers of Quran and the believers fail to walk the path with the messenger?*

***The Answer through the Verses:*** Verses 27+28+29+30, the sum is 114. As stated by me earlier, the majority failed to uphold the entire Quran containing 114 chapters and 6234 numbered verses. When these 4 important verses serving a “key message and essence” of Islam are taken as pairs, the revelation of the Sacred Codes is revealed through them.

**Verses 27-28** The sum of the digits is  $2+7+2+8 = 19$

**Verses 29-30** The sum of the digits is  $2+9+3+0 = 14$ . The Sacred Codes, as well as other revelations recited above conform with the Signs granted by GOD to this messenger, **M.H.**

***The messenger is truthful now, and will be proven to be truthful on the Day of Judgment also. Compare the following parts of 2 essential verses on “wishing” by the negligent believers and hypocrites,, and the response of the messenger addressed to the Lord of the Universe for their failure and breakdown in belief, utterances, and action in this life.***

**25:27 Part:** “Alas, I wish I had followed the path with the messenger.”

**25:30 Part:** “My Lord, my people have deserted this Quran.”

**Revealed:** The messenger’s letters are 14 and 13, the diff. is 1, Subhan Allah.

I do not have enough words to express the crucial importance of these verses. They are like the yardstick to measure your belief in Allah and the Quran against your utterances and striving for God through His messenger. All I can do is to show you the intricate nature of precision of the Most Wise in structuring and composing the sacred verses, knowing beforehand the behavior, attitude, and response of the human beings. I will now show you the precise linkage between 3 important words used in verses 25:27-30. They are: 25:27, Al-Rasool (the messenger), 25:30, Ya Rubb (my Lord), 25:30, Al-Quran (the Quran).

**Sacred Coding of Allah:** After “Al-Rasool” in 25:27 up to the word “Ya Rubb” in 25:30, the Allah letters are 32 and the messenger’s letters are 51, the difference is 19. This establishes the importance of messengers, the inspiration received by them from Allah, and proves that the System of belief is based on messengers, whose acceptance thereof, or the consequences through the rejection thereof, will be weighed and measured in context with the decreed System.

Now, after the word “Al-Rasool” in 25:27 to the “Aleef of Al-Quran” in 25:30, the Allah letters are 38 up to the Aleef to reflect on His Absoluteness in revealing the Quran, while the messenger’s letters are 57, to reveal the difference of 19 again. Subhan Allah.

Furthermore, from within these sacred words of **Al-Rasool and Al-Quran**, the Most High creates and reveals the name of the messenger, to show you the importance of the system and the connection of the messengers with the scripture. Note my name letters which appear in these words:

**Al-Rasool – Al-Quran**: The **letters of the messenger** are: Laam – Seen – Wow – Laam – Laam – Qaf – Nun. These are **7 letters** of my name and the GV adds up to **306**, revealing my full name, Alhumdo Lillah.

After witnessing such profound proofs through the verses, let there be no doubts in your minds, so that you can believe fully in a wholehearted way. I hope that you do indeed **“walk the path with the messenger.”** You have seen the sacred linkages between the words - **“Lord – Messenger – Quran”** through the proofs of Allah. He has thus clarified the correct path for you to follow without faltering or stopping short.

**If the believers are really with me, how come they do not comply with my requests? How come they do not care to read the Quran more often? How is it that they do not offer any kind of striving or sacrifice in the cause of GOD?** The problem has always been that most people do not take God’s commands seriously and are duped by the devil easily into believing that basic belief will suffice, or that God is going to forgive everyone in the end. This kind of illusion is what makes most go astray sooner or later. The messenger is strictly commanded by Allah not to listen or obey the hypocrites and the disbelievers who have no contribution towards guidance, following the guidance, or striving in the cause of Allah.

**25:52** Therefore, do not obey the disbelievers, and strive against them with this, a great striving.

**Revealed: Allah letters** are 11 and **messenger’s letters** are 9, **the diff. is 2** (gods- idolatry). The majority remains disbelievers one way or the other, and the messenger’s guidance does not make any difference to most of them. Only few will take complete heed.

**Revealed:** Note that the sum of digits of chapter and verse no. is:  $2+5+5+2 = 14$ , **Seven Pairs**.

Whole-hearted involvement and total devotion for the righteous cause and belief is what is needed; but most believers choose to remain sedentary even after believing. Most of you are really not ready to strive alongside the messenger and are content with basic belief, which can disappear and evaporate any time satan creates doubts in your minds. GOD has even pointed out that the “striving is too much for them.” Should this not alert you about your weaknesses already pointed out and that GOD knows everything about you?

**9:42 Part**: If there were a quick material gain, and a short journey, they would have followed you. **But the striving is just too much for them.**

We had an important gathering in Toronto a short while ago with the majority of the congregants participating. Ask those who were here as to the nature of the topics, the sermons, the verses, and the clear proofs seen and witnessed by them. Could they have ever imagined to be seeing such profound miracles from the Quran with verses precisely marked with specific numbers which are sacred in the context of Quran, and to hear from the messenger whose name is in the Master Record of the Almighty, the Supreme LORD, and who has been appointed to deliver the Ultimate Miracles to human beings? Even after attending an important gathering, some have gone back to their worldly life and become oblivious to God’s sacred revelations. Even though I pointed out to everyone to improve on their weaknesses and to be active in community affairs, some have not

made any change to make me feel hopeful. When the door for hope is closed, what remains is hopelessness. When the believers decide to remain hopeless in their fates and do not advance as commanded by God; then I would like to let all of you know the end results and consequences of stalling in your belief, which in actual terms is regression.

God has just revealed a message for me and for all of you. After reading instantaneous revealed messages from the Creator – the Omniscient – if the reverence for Allah does not increase even after seeing His Omnipotence to open up the verses to reveal specific messages, then nothing more can offer any kind of assurance to keep the believers guided.

**6:70 Part:** You (the messenger) shall disregard those who take their religion in vain, as if it is a social function, and are totally absorbed in this worldly life.

The messenger is being asked by the Supreme to disregard those who do not take the religion seriously. In other words, they are there or participate when they feel the need to, and not when God commands them through His messenger. For most of them, it is just another gathering and meeting place or to exchange thoughts and ideas for social interaction. Note the proofs exposing such people.

**Revealed:** The Allah letters are 17 and the Aleefs are 8 – a sacred structure of specific letters to reveal and to communicate the command to the messenger, **Makbool, 178**, Subhan Allah.

**Revealed:** The GV of **17 Allah letters** is also 178, revealing the name of the messenger, Makbool, for the second time through the same verse.

**7:51 Part:** Those who do not take their religion seriously, and are totally preoccupied with this worldly life.

**Revealed:** The Allah letters are **17** and the Aleefs are **8** – the Pattern of 178.

**Revealed:** The GV of **17 Allah letters** is 178, Subhan Allah.

**6:70 Part:** You (the messenger) shall disregard those who take their religion in vain, as if it is a social function, and are totally absorbed in this worldly life.

**7:51 Part:** Those who do not take their religion seriously, and are totally preoccupied with this worldly life.

**Revealed:** The messenger's letters are 22 and 21, the diff. is 1

This is Allah – the Supreme, speaking through the verses to the messenger to convey guidance and messages to the believers and to the other people. Are the people even appreciating ALLAH, His Wisdom, His Power, His Omnipotence, His Absoluteness, His Greatness, and all of His other Attributes? You can only comprehend ALLAH through the proven verses of the Quran and through the proofs in the heavens and the earth. If the Quran does not move the people into belief and action, nothing else will. This Book was sent down to the people on Earth as a powerful Miracle from ALLAH, Most Praiseworthy.

The proven message is **SERIOUS**, as the following verses point out.

**86:13-14** This is a serious narration. Not to be taken lightly.

**Revealed:** The **Allah letters** are 11 and the **messenger's letters** are 12, **the diff. is 1**. The Supreme Revelation of 1 informs the people about the serious nature of this message. Anyone who underestimates this message or any previous message will not stay guided; they will be sent astray.

**73:5** We will give **you (the messenger)** a heavy MESSAGE.

**Revealed:** The **messenger's letters** are **14** – the **Seven Pairs proof** provides the basis for the heavy message.

Most of you do not comply with my requests even with the small tests imposed by God. This already proves that such believers still have doubts about God's Absoluteness, and are not sure about the Day of Judgment. If one is sure of the Hereafter, then one's belief and actions will be totally different and they will be compliant. I sent an email on August 2, to ask all of you to compile verses addressing the believers how to spread the message to others. Few of you complied; the remaining has forgotten about it. Time after time, I see the same behavior and attitude. This is why GOD tells the messenger to "**disregard**" those who take the religion as if it is a social function. The disregarding of the messenger really means that he does not have to offer any more guidance or answer the questions of those who are not serious in their belief and faith, and do not care to honor the messenger's requests of striving alongside with him.

Some of the believers do not make any effort to advance their knowledge in religion. This is purely due to their negligence and laziness. There is no good substitute for one's own negligence and blatant disregard of God's commands. **They have made no effort to read the more than 100 sermons listed on the website, nor do they care to read my emails conscientiously and the guidance contained in them. All of you should read the Sermon on "Similarity of your school / college classes to the Messenger's class" given on November 4, 2005.**

During your school or college years, if you can recall, you had to make an all out effort on your own, after attending the class with the teacher to further understand the subject matter, to revise it, to memorize it, to grasp it, and to prepare well for the exams in order to pass them and to be promoted to the next level. The teacher addresses for a limited time only, and then moves on to the next level, and so on. There are targets and goals set so that the curriculum for the specific year can be achieved. The students are supposed to do some homework and preparation on their own. Whoever lags behind is left behind, while those who stay up to the standards move on to be successful. This is standard norms throughout the schools and colleges of the world.

Try to apply the same standard as being students in my class of religion. Hardly any of you in keeping abreast of the revelations in trying to understand and appreciate them, or doing sufficient reading of your own to compile verses on important subject matters. I know for example, that M.W.B. (initials of a believing man) has compiled verses on certain subjects in the past. He later sent them to me for further assistance and guidance, which I did. Each of you has to take interest if you consider the revealed message important to your life – and if it is, then to give it top priority by devoting some of your time in studying the religion and to help out the messenger in spreading the most important message to the world. There is even a verse for **the believers** on devoting their time in studying the religion.

**9:122 Part 1:** When the believers mobilize, not all of them shall do so.

**Part 2:** A few from each group shall mobilize by devoting their time to studying the religion. Thus, they can pass the knowledge on to their people when they return, that they may remain religiously informed.

**Revealed:** Note the digits of the chapter and verse number add up to:  $(9+1+2+2) = \underline{14}$

**Revealed:** The entire verse is marked and stamped with **19 Aleefs of Absoluteness**, Subhan Allah.

**Revealed:** The **Aleefs** are **19**, while the **Allah letters** are **33**, to reveal **the diff. of 14**.

**PART 2** is also marked with the GV of **Allah letters as 223** – a command from Allah to **the believers (223)** to stay religiously informed all the time, listen to the messenger, and to communicate the messages to other believers, who may not be aware of the messenger's instructions, as well as deliver the message to all the people.

Peace be upon the messengers.

PRAISE BE TO ALLAH, LORD OF THE UNIVERSE.
